

Comprehensive Clozapine Training

Application Form

This course will only run if there are 20+ participants.

Program Aim

The aim of the program is to provide participants with an understanding of all aspects of clozapine education in relation to the Therapeutic Goods Administration Clozapine Protocols, SA Health Clozapine Management Clinical guideline, drug interactions, side effect management, Adverse Event Protocols and provide information regarding the SA Health Nurse Led Clozapine Clinics and associated standardised documentation.

Eligibility / Entry Requirements *(refer to flyer)*

For nursing staff no partial attendance is available for this course, both days must be completed in their entirety. For pharmacy and medical staff sessional attendance may be negotiated on request.

For SA Health nursing staff, a compulsory 4 day supernumerary placement with a community clozapine coordinator will be required in order to receive the certificate of completion. This placement has Clinical / Co-Director approval; it is to be completed in a 4 day block Mon – Thurs. The placement is to be negotiated with line management. Regional LHN participants complete a combination placement within the metro LHN Clozapine Clinics and within their home team. Regional LHN participants also have the option of completing the Long Acting Intramuscular Injection (LAI) training during the metro placement. There is an expectation that following completion of the training participants will be available to relieve community Clozapine Coordinators.

Dates, Times and Locations

This two day workshop will be held at Glenside Health Services in the Administration and Learning Services building on (select one course date).

Monday 15 & Tuesday 16 April 2024, 0800 – 1700. (20 places)

Thursday 8 & Friday 9 August 2024, 0800 – 1700. (40 places)

For all participants it is mandatory for the following online courses to be completed prior to attendance: **High Risk Medicines: Clozapine**, this course is on Digital Media or via the National program <https://hrmeducation.health.gov.au/> you will need to register and select "other", and **Introduction to Cardiometabolic Syndrome**. This course is on most LHNs learning platforms. If you are unable to access the modules you will need to contact Lisa Wilton lisa.wilton@sa.gov.au

As a **registered nurse** I am aware that by completing this course I may be asked to relieve / backfill a community clozapine coordinator as I will have gained the skills required to run a nurse led clozapine clinic (applicable only to registered nurses).

The community clozapine clinic preferred for the placement would be:

Please note every endeavour will be made to secure your preferred placement, but this cannot be guaranteed due to placement numbers and clinic availability.

Applicant Signature

Approval from Manager to Attend Course
